Outages

In order to provide a predictable maintenance schedule to DPS users worldwide, the DPS PMO will be taking the DPS application offline starting at 1900 Central Time on Friday nights. The application will return to service once maintenance activities are completed. The specific times of scheduled maintenance will be identified in the DPS Advisory messages released by the TCJ9 prior to any activity.

Notices

If you are a customer moving during Peak Season 15 May - 30 Sep, please request your move in DPS as soon as possible after receiving your PCS orders. Once your shipment has been awarded it will be reflected in DPS and the moving company should contact you within three calendar days of shipment award, and confirm an agreed upon pickup date inside the 7-day spread (in writing).

We realize our customers have various browsers, operating systems, and devices available to them. In order to have the best experience when interacting with DPS, Chrome is the preferred browser using a laptop or desktop device. Customers can use Other Browsers or Devices, however, certain aspects of the application may encounter issues. The program is working to provide maximum browser flexibility.
